Postal & Copy + — “Next Level” Asset & Info Checklist

Prepared for: Brian (KD70) · **Re:** postalandcopyplus.com · **Date:** June 28, 2026

Doubles as the agenda for the meeting with Vince (owner), Tue June 30.

The website is live and solid, but it’s running on **zero real photos** and several assumed details. This checklist is everything that would take it from “good small business site” to “best-in-town.” Items are grouped by priority. The biggest wins are in Priority 1.

Priority 1 — Photography (the single biggest gap)

The site currently has **no real photos**. For a local retail + service business, real imagery is the #1 driver of trust and walk-in traffic. Phone-camera shots are fine — shoot in natural light, landscape orientation, high-res (2000px+ wide). We’ll crop/optimize.

- ☐ **Storefront exterior** with the sign visible — helps people recognize and find you
- ☐ **Interior** — counter, retail floor, the overall feel of the shop
- ☐ **Gift displays** — 6–10 well-lit shots (feeds the new Featured Gifts gallery)
- ☐ **Owner / staff** — a friendly photo of Vince and the team (humanizes a local biz)
- ☐ **Action shots** — packing a box, printing a banner, notarizing, the box builder in use
- ☐ **Equipment** — wide-format printer, copiers (shows real capability)
- ☐ Optional: mailbox area, passport-photo setup

Priority 1 — Logo & Brand Files

- ☐ **Official logo** — vector (SVG / AI / EPS / PDF) **and** a high-res transparent PNG (*the site currently uses a text “P+” placeholder mark*)
- ☐ **Exact brand colors** (hex codes) if they exist — we’re currently approximating navy + red
- ☐ **Brand font(s)**, if any
- ☐ Existing **print materials** (business card, flyer, signage photo) to match the look

- ☐ Official **tagline / positioning** line, if there is one
-

Priority 2 — Business Details to Confirm (accuracy)

- ☐ Exact **carrier authorizations** and wording (FedEx Authorized ShipCenter; for USPS — is it a Contract Postal Unit / Approved Postal Provider?)
- ☐ **Full current service list** + anything no longer offered (passport photos? fingerprinting?)
- ☐ **Amazon / online returns** — do you accept them? (*A huge traffic driver for ship stores — currently not mentioned anywhere on the site.*)
- ☐ **Notary** — fee or free, walk-in vs. appointment, mobile notary?
- ☐ **Mailbox rental** — pricing/plans, package acceptance, access hours
- ☐ **Printing** — do you want prices, a rate sheet, or a “request a quote” flow?
- ☐ **Year established / history** — how long in business, family-owned? (for a real About story)
- ☐ **Service area** wording (e.g., Lewiston–Clarkston Valley)
- ☐ **Payment methods** accepted
- ☐ **Holiday / seasonal hours**
- ☐ Languages spoken (if relevant)

Priority 2 — Gift Shop Content (for the new Featured Gifts section)

- ☐ **Real gift categories / brands** (replace the 6 placeholders)
- ☐ **6–10 gift photos** (gallery-ready — overlaps with Priority 1 photography)
- ☐ Any **signature, local, or exclusive** items worth featuring
- ☐ **Seasonal rotation** plan?

Priority 2 — Trust & Social Proof

- ☐ Permission to feature **Google reviews** (currently 4.6★, ~70 reviews) as testimonials

- ☐ Pick the **3–5 best reviews** to quote
 - ☐ BBB or other ratings/affiliations, if any
-

Priority 3 — Off-Site & Blind Spots (not on the site, but critical)

These are the things small businesses most often miss — and several matter more than the website itself.

- ☐ **Claim the Google Business Profile** (currently **unclaimed**) — add website, photos, hours, services, posts. For a local store this drives *more* traffic than the website.
- ☐ **Email on the domain** (info@postalandcopyplus.com) — not set up yet; needed for a contact form and a professional address. (Cloudflare Email Routing is the quick path.)
- ☐ **Contact form** — the site is currently call/visit only; there's no way to message online. Decide yes/no (requires email above).
- ☐ **Analytics** — no traffic visibility today. Add Google Analytics or privacy-friendly Plausible, plus Google Search Console.
- ☐ **Directory consistency (NAP)** — make Name/Address/Phone identical across Yelp, Bing Places, Apple Business Connect, the FedEx locator, and PackageHub.
- ☐ **Social media** — Facebook / Instagram handles to link (many local ship + gift stores live on Facebook). Provide handles, or decide to create them.
- ☐ **Privacy policy** — needed once analytics, email, or a form is added.
- ☐ **Holiday shipping deadlines** — a seasonal page/post; big value for a ship store.
- ☐ **FAQ page** — Amazon returns? passport photos? notary fee? “can you receive my packages?” do you sell boxes? (Cuts phone calls and helps local SEO.)

Nice-to-Have / Future

- ☐ Online printing upload/order form
- ☐ Newsletter / email capture for promos
- ☐ In-store QR card to request Google reviews

- ☐ Product & review schema for richer search results
-

Quick agenda for Tuesday (6/30) with Vince

The short list to walk away with:

1. **Photos** — storefront, interior, gifts, Vince/team, action shots
2. **Logo files** — vector + transparent PNG; brand colors
3. **Confirm services** — especially **Amazon returns**, notary fee, mailbox pricing
4. **Gift categories** + gift photos
5. **Reviews** — OK to quote Google reviews?
6. **Google Business Profile** — get access to claim it
7. **Social handles** — Facebook / Instagram?
8. **Email** — set up info@postalandcopyplus.com?

Everything Vince provides drops into `config.js` / the photo folders — no rebuild needed.
